## After School Science

Children need more exposure to science, especially hands on challenges! They learn by doing. Engineer, Experiment & Engage!!! Participate in hands on labs to bring scientific principles & concepts to everyday reality! These are STEM labs in action, designed to inspire & encourage the children & have them asking for MORE Science!!

**TRI 1: RUN AROUND RAMSHACKLE PHYSICS!:** Let's build **round walls!** Check out **slopes & angles!** Collide with cardboard! Here are roofs from temples to castles! Imagine your **research station** moving! Will your model work? & **STELLAR SPACE:** What can we see out there? Why and how? Participate in some awesome experiments from **NASA** demonstrating how information from the **solar system** & beyond is gathered! How is Earth protected from radiation?
