

## 1st—4th Grades

Dynamic &amp; Exciting Science!

All labs are hands on & make & take!! This your child's chance to DO, ~ Build, Test, Invent, Design & more!!

## Spectrum of Science Foundation

Let No Future Scientist  
be Left Behind!!

[www.spectrumofscience.com](http://www.spectrumofscience.com)

## SPACE COLONY &amp; ROBOTS!

By "Kid Request," Spectrum of Science has designed this totally new & different camp! Check into our outpost in space - Build a space compass & learn to orient yourself in space where no one has gone before! Go on a solar scavenger hunt & make a visual diary of life on the sub station! Design a suitable space suit for the SOS astronaut! Observe those bubble head aliens! Build a rolling droid! Have an out of this world experience in this Space Zone!!

*Frederisken Elementary*

June 25 to June 29

8:30 to 12:30 \$235

## SCIENCE SCATTER!

Make science a reality! **Chemistry & Physics** combined! Find fascinating magnetism & map magnetic field lines – special magnetic kit!! Is what you see what you get? **Light it up & test** with a probe. How does chemistry effect the light? Images galore! Split it! Reverse it! What can air accomplish? Wing it! Matter, matter & more matter – what does it matter? Is it slippery or slimy or sticky? Shake it up with an earthquake simulator model & investigate tantalizing twists!! Don't forget to roll with the physics of friction! Lots of excitement & exuberance in these dynamic science filled labs!

*Frederisken Elementary*

June 11 to June 15

8:30 to 12:30 \$235

## SEA FOR YOURSELF!

Curiosity reigns! Let's explore our natural world from the very small to the very tall! Check out creature characteristics: wrappers & coverings, habitats & adaptations plus wings, horns, claws, tails & more! Spectrum of Science Foundation's National Geographic certified divers have had a great time in working with marine educational centers to develop these labs & bring marine & aquatic science to students on land!! Become a marine engineer as you test to float a boat and use an **aqua scopes!!** Find strange creatures – special features!

*Frederisken Elementary*

June 18 to June 22

8:30 to 12:30 \$235

## WING IT ~ FLING IT!

**WING IT! FLING IT!** Build a custom model plane and learn its controls! Make them work! Put together a flight tool tube kit! Free a Frisbee! Flap & check out other flying "things"! Join the flight challenge! Can you design, build and test a model that will fly? Good luck & happy landings!

*Frederisken Elementary*

July 2 to July 6 (no camp on 7/4)

8:30 to 12:30 \$195

Registration required!

Limited to 26 students!
