More questions! ~ More challenges! ~ More Answers!

Test it, Try it, Take it!!

Expand your science knowledge & learn by doing. Participate in hands on labs to bring scientific principles & concepts to everyday reality! These are STEM labs in action, designed to inspire & encourage the children!

CHEMISTRY 101: Become a creepy chemist as you **experiment** with chemical capers! Experiment with weird fluids! Understand experimental design as you find what ingredients are causing a certain **chemical reaction**! Choose your ooze ~ polymers & non-Newtonian fluids will be compared. Look at the **Periodic Table** – can you make an element? Electrons, neutrons & protons will be explored & transferred. Can we make a lot of mess with **explosions??** Yes, is the answer!! Come and become a curious chemist!!
